KOO EUROPE srl

**Face mask
for CPAP ventilation,
with inflatable cushion
and with double-valved ports.
The cushion guarantees
air-tightness
and a high comfort level**

- Face mask devised for CPAP ventilation, with double-valved ports.
- Thanks to the inflatable cushion, the mask adjusts perfectly to the patient's face preventing air leakage.
- High transparency allows good visibility.
- All Latex free material.
- Single patient use
- Available in three sizes: Large - Medium - Small.
